

Amendments to the Specification:

Please replace paragraph on page 13, lines 16-22, with the following amended paragraph:

In response, at 423, the director 301 assigns the wireless device 210 to a particular dispatcher 310. The dispatcher may again query the database to determine whether the insufficient funds indication still exists at 424. If so, then at 425, the dispatcher transmits a request to the billing server 315 to retrieve an account update from the wireless service provider 200. At 426, the billing server renews the lease by communicating with the CCN, causing the ~~GNN~~ CCN to debit the periodic lease fee from the service provider, and updating the database.

The above amendment does not add any new matter. It merely corrects a typographical error.
